## **New in April: Workshops on “Hydrotherapy for Horses”**

Hydrotherapy for horses is gaining increasing interest. It is a very gentle training and rehabilitation measure. The workshops should form a basis for effective and sustainable training of the horses in the water.

For example, many people think that operating an aqua trainer is not a big deal. From my own experience over several years, however,

I can say that this is absolutely not the case. It requires some basic knowledge of the anatomy and biomechanics of a horse and, above all, tact and a trained eye when working with the aqua trainer.

In my courses, I teach the participants the most important basics and give tips for successful aqua training. The focus here is on training supplements and prevention and rehabilitation.

After the many years that I have been working with the aqua trainer, I have been able to get to know a large number of horses and thus a large number of individuals and therefore have a lot of experience in dealing with horses during aqua training. Every horse is different and therefore every horse reacts differently to aqua training.

I would like to pass on all my experiences to the participants to give them a smooth introduction to aqua training and, at best, to avoid bad experiences.

**Together with Kim Cremer, veterinarian and osteopath, and Verena Bauske, osteopath, we impart the necessary knowledge!**

The courses are aimed at anyone interested in working with an aqua trainer (riders, trainers, keepers, stable managers, veterinarians, therapists).

## **Workshop “Hydrotherapy for Horses” at the 03.04.2023**

This course is suitable for anyone who would like to gain knowledge about aqua training for horses and want to work successfully and sustainably with an aqua trainer. This course is divided into two groups.

The **first group** is aimed at riders, grooms and those interested with no prior knowledge of equine anatomy and biomechanics. These are taught in the seminars.

The **second group** is aimed at therapists and veterinarians who want to work with the aqua trainer primarily in rehabilitation.

The first course is expected to start in April 2023.

The number of participants is limited to 4, so that everyone has the opportunity to gain initial experience with the aqua trainer on the practical weekends.

### **First group: For those interested without prior knowledge:**

- Anatomy musculoskeletal system
  - Indications/contraindications
  - Knowledge of the aqua trainer
  - How do I properly get horses used to the aqua trainer
  - Properly build up aqua training as a training supplement and prevention
  - The theory is taught via an online course and lasts about 4 weeks (the learning time can be scheduled flexibly).
- This is followed by the practical seminars. These will take place over 2 weekends.

**Price: 1.500 euros (net) including teaching material and meals on the practice days**

### **Second group: For veterinarians and therapists:**

- Indications/contraindications
- Knowledge of the aqua trainer
- How do I properly get horses used to the aqua trainer
- Aqua training especially in rehabilitation
- The theory is taught via an online course and lasts about 2 weeks.

This is followed by the practical seminars. These will take place over 2 weekends.

**Price: 1.200.euros (net) including teaching material and meals on the practice days**

**Registration and further information via [pferdetherapie.molls@gmail.com](mailto:pferdetherapie.molls@gmail.com).**

**Registration form**  
**Workshop on “Hydrotherapy for Horses”**  
**at the 03.04.2023.**

Name, first Name: \_\_\_\_\_

Street: \_\_\_\_\_

Postcode, Location: \_\_\_\_\_

Phone number: \_\_\_\_\_

**I would like to take the following course:**

- ☐ **First group:** (For those interested without prior knowledge)  
- 1.500,00 euros (net) including teaching material and meals on the practice days
- ☐ **Second group:** (For veterinarians and therapists)  
- 1.200,00 euros (net) including teaching material and meals on the practice days

**Important:**

**Participation will only be considered after registration and receipt of the course fee.**

The number of participants/place allocation per event is limited. Determining the number of participants is the responsibility of the organizer. The order in which the registrations are submitted to the organizer applies. The course fees are due immediately after receipt of the invoice from the organizer, but no later than 14 days to transfer to the account of the organizer before the date of the booked course or to be paid in cash. If payment is not received by the organizer within the specified period received, he is entitled to reassign the place without prior notice. The participant can cancel free of charge up to 10 working days before the start of the course. The cancellation must be made in writing. If the participant cancels later than 10 working days, a cancellation will be made cancellation fee of 100% of the course fee. The provider is not obliged in this case to prove that the damage incurred was less than 100% of the course fees.
